Arcontia introduces its new product family "EVOCO Line"

Gothenburg, Sweden, June 2, 2009 - Arcontia introduces its new product family, EVOCO Line, at the UITP Mobility & City Transport Exhibition in Vienna 8-11 June 2009. EVOCO Line consists of compact smart card terminals for validating, vending and reloading in public transport. The terminals are designed for onboard and stationary use, focusing on enhanced accessibility and seamless travelling for passengers.

VENDO T8 Smart Card Terminal:

A compact and versatile terminal for reloading contactless smart cards and purchasing paper and electronic tickets using EMV bank cards and via the Internet. Equipped with an ISO 14443 A/B smart card reader and a 8" TFT colour touch display, VENDO T8 is designed for unattended use either onboard vehicles or at fixed locations.

ARCO eTicket Smart Card Terminal:

A complete unattended terminal, designed for topping up contactless travel cards with EMV bank cards or via the Internet. Equipped with a thermal paper printer, ARCO eTicket is also intended for purchasing paper tickets onboard vehicles or at fixed locations.

ACTIVO T6 Smart Card Terminal:

A user friendly and versatile terminal for reloading and validating contactless smart cards in a wide variety of environments. ACTIVO T6 includes an ISO 14443 A/B smart card reader for travel card reload and platform validation, as well as a 6" TFT colour touch display and soft keys for easy viewing and menu navigation

AGITO T4 Smart Card Terminal:

A compact and ergonomic terminal for smart card validation onboard vehicles, as well as contactless payments and reloading of travel cards in retail outlets. Equipped with an ISO 14443 A/B smart card reader and a 4" TFT colour touch display, AGITO T4 is designed for attended or semi-attended use in combination with bank payment terminals, offering new possibilities of using travel cards, bank cards and NFC phones.

About Arcontia

Arcontia has been active in the smart card industry since 1996 and is today a leading producer of contactless smart card readers and terminals for e-ticketing and e-payment markets. The company's focus is to deliver reliable, high quality readers and terminals featuring the latest technology and market requirements for easy adoption and integration of smart card applications. Local office is based in Gothenburg, Sweden.
